"*The Sexual Person* draws from Catholic tradition and provides a context for current theological debates between traditionalists and revisionists regarding marriage, cohabitation, homosexuality, and reproductive technologies. This daring and potentially revolutionary book will be sure to provoke constructive dialogue among theologians, and between theologians and the Magisterium." – *Published by Georgetown University Press*

"Todd Salzman and Michael Lawler's new book...is among the most important works in Catholic sexual ethics to emerge in the last two decades. Their book will be noticed because of its controversial positions on contraception, same-sex relationships, cohabitation and artificial means of reproduction. However, its contribution is its

clear articulation of a person-centered natural-law ethic that offers Catholics an authentic way to think about sex in relation to their faith." – *National Catholic Reporter*

"Salzman and Lawler cover the whole gamut of issues in sexual ethics in impressive and thoroughly scholarly detail. They are conversant with the results of a wide range of recent studies in sexual psychology; and this material is effectively integrated into a tight philosophical argument... it is very refreshing to read such a balanced treatment, controversial but not at all combative or defensive in tone. Their conclusions are thoroughly constructive and very convincing. Overall, it is a most impressive achievement." – *The Way*
